

For Reviewers:

The work of a reviewer is one of great responsibility. It requires expertise, integrity, and not a little time. At *Ad Hoc* we are deeply appreciative of our reviewers' invaluable contributions.

Please send your review as an attached Word Document to adhoc@ehs1.org. Indicate in the body of your email whether or not you recommend the manuscript for publication.

In reviewing a manuscript please consider the following points:

1. Is the subject related to either teaching methodology or education theory?
2. Is the material original?
3. Does the scholarship make a substantial contribution to its field?
4. Are the style and substance of publishable quality?
